9. QUESTION: (INCLUDE SCENARIO IF NEEDED FOR CLARITY):

If a CalFresh Recertification (RC) is started prior to the end of the certification period but is not completed, however the household takes the required action after the end of the certification period but within 30 days after the end of the certification period, can the case be reopened and the RC completed?

See next page for examples.

10. REQUESTOR'S PROPOSED ANSWER:

Yes. If a CalFresh Recertification (RC) is started and not completed prior to the end of the certification period, but the household takes the required action after the end of the certification period but within 30 days after the end of the certification period, the county will reopen the case and provide benefits retroactive to the date the household takes the required action.

The county will then determine the cause of the delay and benefits will be prorated from the date the required action was completed if the delay is client-caused. Benefits will not be prorated if the delay was county-caused or good cause can be established.

11. STATE POLICY RESPONSE (CFPB USE ONLY):

Example 1- Per 63-504.6(i)(1)(A) the household has lost their right to uninterrupted benefits. The county shall re-open the case and prorate benefits from the date the client completed all of the necessary action (Right and Responsibilities) to complete the recertification process (Dec 14th).

Example 2- Per 63-504.6(i)(1)(A) the household has lost their right to uninterrupted benefits. The county shall re-open the case and prorate benefits from the date the client completed all of the necessary action (SAWS 1 application) to complete the recertification process (Dec 14th).
